Qu'Appelle District Beats the Record.

At the Grain Show held in Fort Qu'Appelle on Friday last the first prize was given to wheat weighing 68 lbs. to the bushel and the second to grain weighing 66 lbs. Mr. Ormiston of Fort Qu'Appelle was the fortunate possessor of the first prize variety. This sample beats all known records, the previous record being 66 lbs.

The exhibits winning prizes at this show will be sent to the department of Agriculture, Regina, whence they will be forwarded to Paris as part of the Canadian exhibit at the Exposition in 1900. The Qu'Appelle people have good reason to feel proud of their district.

Correspondence.

McLEAN TOWN HALL COMMITTEE.

To the Editor of THE PROGRESS.

SIR.—If you will allow me space I would like to correct an error on the part of our correspondent of last week, when in one of his news items he states that a secret society has been started, called the Town Hall Committee. Certainly we do not wish to deny the committee part, for at a public meeting held here a short time ago to discuss the advisability of erecting a public building a committee that is now doing good work was appointed, but in regard to secrecy being practised in connection it is absolutely untrue, and we take it as the emanation of ignorance or sore head. If for the latter we would recommend a course of Pink Pills to allay the agitation of the nervous system. Trusting this will dispel any misunderstanding and thanking you for space, I remain
ONE OF COMMITTEE.

Edgely Echoes.

From our own correspondent.

Mr. S. Goro has returned to his farm near Whitewood, but will soon return to become a permanent settler.

Mr. Robert Acton, a brother-in-law of Mr. W. T. Holliday, arrived recently on a visit to these parts. Mr. Acton hails from Mount Forest, Ontario, and returned home last week. He likes this country well, and may return.

A meeting of those interested in Sabbath School work was held in the hall on Thursday evening to consider the annual Sunday School Anniversary to be held about Christmas. Full particulars will be given later.

(Later news.)

Visitors to our district during the past week were Mr. Scott of Poplar Plains, Mr. J. Root of Wide Awake, Messrs. R. J. and A. Brown, the Misses Brown and Rev. Mr. Brown, all of Davin.

Mr. H. Booth, who has been for some years in B. C., accompanied by his niece, has arrived to visit his parents here.

At a recent meeting of the P. S. Board it was decided to hold a public examination on closing day, Dec. 21st. All interested are invited to come early and have lunch at noon. As usual, a treat will be provided for the pupils attending school. We hope all parents will accept this invitation and visit the school on that day. Examination begins in the morning.

Our fine weather still continues, giving threshers a chance to finish their work before cold and frost arrive. One machine has ceased operations for the season, another is now at work in our midst, while the third is now threshing on the Indian Reserve, where it will be for some time yet.

Several visited Indian Head last Wednesday to take in the political meeting, and speak in glowing terms of the speeches delivered by the politicians who were present.

The Xmas tree and entertainment in connection with the Methodist Sabbath School will take place in the hall, on the evening of Friday, 23rd of Dec. A good programme will be given, and a very interesting time is anticipated. Admission 25c, and 15c.

As a guide to giving to the Twentieth Century Fund, Rev. Mr. Hoskin gave a very stirring address last Sunday on "Methodism," showing what it has done in the past, also pointing out many good reasons for being thankful that it is growing and exerting such a good influence on the people of the present day.

WAR NEWS.

Estcourt, 18.—For several days it has been known that the Boers have been creeping towards Estcourt and had boasted they would be there this morning. They were met upon their arrival with a reception that they little expected. At 10 o'clock the Dublin Fusiliers took up their position and without wasting any time opened fire at long range on the advancing enemy who were crossing the railway from the northwest of the town. A loud report and a whizzing overhead told the tale of the Blue Jackets' watchfulness. A big puff of smoke indicated that their aim was good, the shell bursting in the midst of the Boers, several of whose horses were observed galloping without riders. The Boers doubled back helter-skelter. On advantageous points of the surrounding hills the Boers' guns were posted, getting ready to cover the advance of their firing line. Their astonishment must have been great as they speedily retired. One shot caused them to withdraw out of sight. They evidently did not dream that the British had a long range gun here as they were coming on with the utmost confidence, evidently expecting to be in Estcourt fifteen minutes after crossing. The Blue Jackets abruptly arrested their progress and deserve credit for the accuracy with which they judged the range. Gen. Hillyard and his staff were beside the naval guns. All is now quiet.

Nov 22nd.

The Imperial troops have begun their northward march through Cape Colony, and have re-occupied Naamport an important commanding station in the Orange River district. It is expected that Colesburg will be occupied next. Reports from Ladysmith on Saturday indicated that the garrison were full of hope and confidence. A party of 700 Boers on the highlands 13 miles south of Estcourt were driven from their position by the Estcourt cariburners. Joubert refused to allow U. S. Consul McCrum of Pretoria to act for the British in the Transvaal.

A Political Trick.

"There is a good deal of pure moonshine and a local warhorse now out of harness," in the faculty of remembering names and faces which is attributed to most successful politicians. In nine cases out of ten they have an innumerable power of that kind, and their apparent feats of memory are very easily explained. Take, for example, the case of a political personage at a public reception. He is sure to be surrounded by a group of local leaders who know everybody in town. Presently a valuable constituent approaches. "Colonel," whispers one of the henchmen, "here comes Mr. Blank." He is an active party worker and a great admirer of yours. He met you last last fall.

The personage catches on promptly. "What does Blank do?" he whispers back.

"He's a produce merchant," replies the henchman. By that time the valuable constituent gets in range.

"How are you, my dear Mr. Blank?" exclaims the notable cordially. "I'm delighted to see you again. And how is the produce business coming on?"

"Poor Blank has spasms of joy. That the famous man should remember him separately makes him as proud as a peacock, and 20 spectators proceed to tell the story in proof of the colonel's marvellous mental gifts. Thus reputations are made."—New Orleans Times-Democrat.

BILIOUSNESS BURDEN'S LIFE.
The bilious man is never a companionable man because his ailments render him morose and gloomy. The complaint is not so dangerous as it is disagreeable. Yet no one need suffer from it who can procure *Parmelee's Vegetable Pills*. By regulating the liver and obviating the effects of bile in the stomach they restore men to cheerfulness and full vigor of action.

A Land for the Tramp.
The natives of the Republic of Colombia do not use much toilet soap, as none is manufactured in the country, and the import duty is about 50 cents per pound. It is cheaper to get along without soap.

James Tyson's Rise in Life.
The late James Tyson was the richest man in Australia. He began life as a squatter, remained a bachelor, and was wont to boast that he could live on a shilling a day.

USEFUL AT ALL TIMES.—In winter or in summer *Parmelee's Vegetable Pills* will cope with and overcome any irregularities of the digestive organs which change of diet, change of residence or variation of temperature may bring about. They should be always kept at hand, and once their beneficial effects become known, no one will be without them. There is nothing nauseating in their structure, and the most delicate can use them confidently.

WEAK, FAINT FEELINGS

Serious Conditions that Milburn's Heart and Nerve Pills can Readily Cure.

One of the indications of serious heart trouble is the sensation of weakness or faintness that comes on at times.

Sometimes it is simply a dizzy feeling that comes off, or it may be a state of unconsciousness with hands and feet cold and countenance ghastly pale.

These symptoms indicate a weakened heart. They are unmistakable evidences of the engine of life breaking down.

Now there's only one reliable remedy for restoring strength and vitality to weakened hearts and relieving all the distressing symptoms. It is Milburn's Heart and Nerve Pills.

The case of Mrs. A. Stratton, Fredericton, N. S., fully proves this. Here is her statement:

"I suffered very much from an impoverished condition of the blood, coupled with extreme nervousness. A dizzy sensation on arising in the morning, and on stairs, often troubled me, and my breath was so short that I could not walk up stairs. The least exertion caused my heart to flutter and palpitate violently, and I sometimes felt a smothering sensation on going to sleep."

I doctored back and forth for my weakness, but I got no relief from any medicine until I tried Milburn's Heart and Nerve Pills, and I was strong and well. I can now say that they helped me wonderfully. Sometimes my face and arms would swell and puff, but all these troubles speedily yielded to the restoring influence of Milburn's Heart and Nerve Pills, and I was strong and well. I do not use them now long until I regained the blessing of healthful, refreshing sleep and it will always be a pleasure to me to recommend them to others."

POPULAR SCIENCE.

A pure blue is shown by experiment to be the natural color of water.

Scientists declare that black letters on a white background form the worst possible strain on the eyes.

The human heart is of almost uniform size in all adult subjects, which accounts for the prevalence of heart trouble among large people.

No count, so far as is known, has ever come in contact with the earth, or mingled its substance with our atmosphere. The nearest approach ever observed was the comet of 1770, which approached to within 1,400,000 miles of our planet.

Lord Tennyson, governor of South Australia, has just presented to the Adelaide Public Library the manuscript of the first poem composed by his father in the capacity of Laureate. It was written in March, 1831, and dedicated to the Queen. Its concluding lines have been made familiar by constant quotation.

"By shaping some august decree Which kept her throne unshaken still, Broad-based upon her people's will, And compassed by the inviolate sea."

DIFFERENCES OF OPINION regarding the popular internal and external remedy, **DR. THOMAS' ELECTRIC OIL**—do not, so far as known, exist. The testimony is positive and concurrent that the article relieves physical pain, cures lameness, checks a cough, is an excellent remedy for pains and rheumatic complaints, and it has no nauseating or other unpleasant effect when taken internally.

KICKERS GETTING READY.

When the baseball season's coming And the horses of the fair Are preparing for their start While the mothers sadly chat, It is then the football kickers, From the public house and slud, Reappear and start their drilling For the battles on the "grid."

Crops of hair they're cultivating So that craniums won't break; Combs and brushes are discarded, And the butter gets the shaker. Padded suits are resorted to, And the playing shoes and hose, And the girls' long hair, And the ugly rubber nose.

Every town and crossroads village Gets excited over the game. Each is forming an eleven With the hope of winning fame. There is nothing for old players Who are up to all the tricks And a goal for money lovers Who are handy on a kick.

They are practicing the passes, Backing and kicking the punts And all other evolutions That are known in football stunts. Teams are working the new signals And the better gets the shaker. And they're confident of winning In the system they have planned.

Yes, the football season's coming, As is plainly now revealed, And another class of heroes Soon will pose upon the field. Hosiery are getting ready For the girls' long hair, And the surgeons are preparing To lend up the broken horse.

DR. LYMAN'S NOOSE.

It Does Away With the Hangman's Knot and Cannot Slip.

Dr. Albert B. Lyman of Baltimore is the inventor of a contrivance for hanging criminals, which he claims will not fail to break the neck, says The News of that city. The number of instances in which the culprit dies a slow death from strangulation are well known, and the device, a coil of which is here published, has worked admirably on dolls and manikins. The contrivance does away with the hangman's knot and cannot slip. A bar of steel, curved to the

DR. LYMAN'S NOOSE.

shape of the back of a human neck, has ropes leading to the center of the inside of the curve, which pass through a hole in the middle of the bar. By pulling the ropes out a few inches and crossing them, one over the other a perfect noose is made, easy to slip, but when once attached rigid in its action. Dr. Lyman would have the condemned stand on a low platform, with no drop, and the other end of the rope, attached to a weight heavier than the criminal.

When all is ready the weight is dropped from a shelf and plunges heavily to the ground, jerking the criminal in the air with such force as to surely break his neck with the doctor's device. Having reached the zenith of its flight the body would as speedily descend the neck, being thus given another killing wound, which would certainly cause a fracture if the first movement failed.

Bakers' Bad Backs.

We little know the toll our hands pay that those who make the "stuff of life" undergo long hours in superheated and poorly ventilated steam rooms is hard on the system, gives the kidneys more work than they can properly do, throws poison into the system that should be carried off by the delicate filters. Then the back gets bad.

Not much use applying liniments and plasters. You must reach the kidneys to cure the back. **DOAN'S Kidney Pills** run all kinds of bad backs by restoring the kidneys to healthy action.

Mr. Walter Buchanan, who has conducted a bakery in Sarnia, Ont., for the past 16 years, says:

"For a number of years previous to taking Doan's Kidney Pills I suffered a great deal from acute pains across the small of my back, pains in the back of my head, dizziness, weary feeling, and general debility. From the first few doses of Doan's Kidney Pills I commenced to improve, and have maintained good health ever since. I have not got a pain or ache about me. My head is clear, my vision is all right, my sleep is refreshing and my health is better than when I first took the pills."

Doan's Kidney Pills are sold by all druggists and by mail. Price 25 cents per box. Sent by mail on receipt of 25 cents.

WANTED—A THOROUGHLY EXPERIENCED and responsible man to take the management in Manitoba and the Northwest of a British L. F. office with an established business. Apply P. O. Box 1265, Winnipeg.

There never was, and never will be, a universal panacea. In one remedy, for all ills to which flesh is heir—the very nature of many curatives being such that were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one ill in turn would aggravate the other. We have, however, in *Quinine Wine*, when obtainable in a sound, undiluted state, a remedy for many and grievous ills. Its gradual and judicious use, the safest system is led into convalescence and strength by the influence which *Quinine* exerts on Nature's own restorative. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life is a disease, and by tranquilizing the nerves, disposes to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the healthy animal functions of the system, thereby making activity a necessary result, strengthening the frame, and giving life to the digestive organs, which naturally demand increased substance—result, improved spirits, Northrop and Lyman, of Toronto, have given to the public their superior *Quinine Wine* at the usual rate, and, guided by the opinion of scientists, this wine approaches nearest perfection of any in the market. All druggists sell it.

Question In Law.
The young man who was once a clerk in a law office was airing his knowledge of the law and giving opinions on everything that came up.

"I s'pose," said the old man with chin whiskers, "that you know all there is to know about law?"

"Well, I s'pose," said that, answered the youth, "but I will admit that I know quite a lot."

"Just the man I want to see, then," answered the man with the whiskers. "You see, I had quite a legal point come up in Kansas, an m'be you kin straighten it out."

"Shouldn't wonder if I could," returned the youth. "What was it?"

"Why, a man lives 'bout half a mile from me had a house with a cellar under it, an I had a house without a cellar. Along came a cyclone, picked both of 'em up, spun 'em round an put mine down where his was, to be an his where mine used to be. We let 'em stay right where they landed, an now what I want to know is, do I owe him for diggin the cellar?"

A BRAVE WOMAN.

Now a Drunken Husband Was Made a Sober Man by a Determined Wife.

A PATHETIC LETTER.

She writes—"I had for a long time been thinking of trying the *Sanaria* Prescription treatment on my husband for his drinking habit, but I was afraid he would discover that I was giving him medicine, and the thought occurred me. I hesitated for nearly a week, but one day when he never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered, something that set every nerve in my body tingling with hope and happiness and I could see a bright future spread out before me—a peaceful, happy home, a share in the good things of life, at last, my husband, contented, and everything else dear to a woman's heart for my husband had told me that which was the staff and he was taking a drink to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I knew that the medicine till it was gone, and then sent for another lot to have on hand if he should relapse, as he had done from his promise before. He never has, and I am writing you this letter to tell you how thankful I am. I honestly believe it will cure the worst case."

I hesitated for nearly a week, but one day when he never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered, something that set every nerve in my body tingling with hope and happiness and I could see a bright future spread out before me—a peaceful, happy home, a share in the good things of life, at last, my husband, contented, and everything else dear to a woman's heart for my husband had told me that which was the staff and he was taking a drink to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I knew that the medicine till it was gone, and then sent for another lot to have on hand if he should relapse, as he had done from his promise before. He never has, and I am writing you this letter to tell you how thankful I am. I honestly believe it will cure the worst case."

LOCAL NEWS

Dentistry.—Dr. Washington, dental surgeon, suite at the Leeward Hotel, here on Tuesday and Wednesday, Nov. 24th and 25th. Teeth extracted without pain. Also best artificial teeth inserted. Satisfaction guaranteed. Call early.

Threshing.

The Sunny South Syndicate threshing gang one day last week at George Box's place threshed 600 bushels of wheat and 1254 of oats in 8½ hours.

Change of Time.

By the new C. P. R. time card the east-bound train leaves here at 21.22 (9.22 p.m.) and reaches Winnipeg 14.20 the next day. The west-bound train reaches here at 4.55 and arrives at Regina at 6.18. This is a much better arrangement for Qu'Appelle.

Liberal Conservativs.

At the Qu'Appelle Liberal-Conservative annual meeting held in the town hall on Wednesday of last week the following officers were elected for the ensuing year: Pres., Mr. B. Harvey; 1st Vice-Pres., Dr. Henderson; 2nd Vice-Pres., Mr. Robert Craig; sec-treas., Mr. W. A. Vickers, Messrs. J. P. Creamer and A. D. Dickson were elected representatives for the Moosomin meeting.

New Patents.

Below will be found a list of patents recently granted by the Canadian government through Messrs. Marion & Marion, solicitors of patents and experts, New York Life Building, Montreal: 61,675, Henry James Bickle, Grafton, Man., cattle guards for railroad crossings. 61,698, Daniel Ferguson, Springfield, N. S., process of canning mashed potatoes. 61,758, David Roy, Quebec, P. Q., rake. 65,759, J. B. Hoque, Montreal, P. Q., sofa-bed. 61,764, James Wilson, Glen Cross, Man., hay loader. 61,755, Jos. Victor Monfette, Ste. Sophie, de Lévis, P. Q., device for handling stones. 61,795, V. Lebault & A. Dorais, St. Laurent Co., Jacques Cartier, acetylene gas generator.

Hockey League.

A movement has been put on foot by the Moosomin Hockey Club to form a league of the clubs between Alexander, Man., and Regina, Assn. As an inducement to form such a league, the Moosomin Hockey Club are putting up a cup valued at \$100, and the president of the club there is offering a number of medals for competition. The cup is to be won two seasons in succession before final ownership is secured, but the medals will be given to the best club this season. This town has not a large enough rink in which to play hockey properly. We believe there are quite a number who would like to play hockey if there was room. If the boys are thinking of starting a club in town this season it is time they were holding a meeting.

No. Display.

Astrologers lately predicted a display, visible to the naked eye throughout the Territories, to take place on the 14th, 15th and 16th of November, 1899. Such a display is said to be visible only about every 33 or 35 years. Between times it is too far from the earth to be visible, even with powerful instruments. Observations on this continent made special arrangements for beholding this display, which was expected to be a very brilliant one, and plainly visible. A number in this town and surrounding country arose several times during the nights of the above dates, but failed to see as much as a falling star. Even the observatories fail to record anything but the falling of a half-dozen stars.

Congregational Social.

The Presbyterian congregational social took place on Tuesday evening last in the town hall, and quite a large number were present. The fine weather enabling many from the country to attend. The usual games were indulged in and judging from the roars of laughter emanating from different parts of the hall, the participants enjoyed themselves immensely. Supper was served about 9.30. The huge pile of choice eatables gave evidence that the ladies had fully prepared for an emergency. After supper

the fun again waxed fast and furious for an hour, and the pleasant evening drew to a close about 11.30. The Rev. Mr. Thompson and the ladies of the congregation are deserving of unstinted praise for their unceasing efforts to add one more to the long list of successes of the Presbyterian church. Most certainly their object was achieved.

A Musical and Literary entertainment will be held in the town hall on Friday, Dec. 15th, under the auspices of Presbyterian Ladies' Aid Society. A treat is in store for all who attend.

C. P. R. Excursions.

The C. P. R. are running their fourteenth annual excursions to the east this year from Dec. 31st to 31st, and are arranging for the accommodation of those who cannot get away, that tickets purchased on Dec. 31st will be good on the going journey until January 10th. The rate from Qu'Appelle is \$12.40 to Montreal and all points west thereof in Quebec and Ontario and correspondingly reduced rates to points east of Montreal.

Farmers' Re Union.

The annual re-union under the auspices of the North Qu'Appelle Agricultural Society was held in the town hall, Fort Qu'Appelle, on Friday last. Succeeding as it did the annual grain show of the same society, a large attendance was ensured. The hall was crowded to the doors with a gay and festive company who had evidently come with the full intention of pleasing and being pleased. It was without doubt the most successful re-union ever held in this historic town. The bright and tasteful costumes of the ladies offset by the quiet suitings of the gentlemen, the smiling faces bespeaking light hearts, and the general air of good will pervading the whole scene rendered it a never-to-be-forgotten occasion by all present. Through the kindly hospitality of the ladies for which the town has been long famous, a plentiful supply of refreshments was served, and enjoyed by all. Representatives from Wide Awake, Springbrook, Loom Creek, Indian Head, Edgely and elsewhere were present and aided in making it what it was intended to be, a re-union of old friends and acquaintances, and a means of arousing a unity of interest throughout the district. Mr. V. W. Barford, as pianist and Mr. Murphy, of the Fort as violinist, ably contributed to the evening's pleasure, while Mr. R. Williams' performance of the duties of floor manager left nothing to be desired.
